

Web Enabled Safety System

WESS **Module** **13-A**

Retrieving **My Data** **Using** **JReports®**

Pre-formatted or

"Canned" Reports

How do I Retrieve My Data?

- A major goal in the development of WESS, was to provide customers with **unprecedented access** to the variety of mishap and hazard information previously available only through Naval Safety Center analysts, on request.
- WESS uses a data retrieval system called **JReports**[®], a Java-based commercial software application, to analyze and retrieve data and to produce reports. WESS offers **Three Levels** of data analysis:

- **Pre-formatted or “Canned” Reports** – A collection of standardized logs & reports using pre-established search parameters usually involving comprehensive Navy-wide data. Some may be tailored by date, UIC, etc._

- **Customized Reports** - A series of reports intended for more detailed search capability allowing for User-defined Search parameters. Customers may build and save detailed report templates for more specific queries.

- NSC analysts may perform more complex or in-depth data analysis

Accessing JReports® Retrieval Tools

In the left **User Activities** frame on any WESS screen, click the desired link listed under **Data Retrieval (JReports)**.

For example, let's first look at a **Pre-formatted Report**, a "canned" report.

When entering JReports®, you will first be asked to re-enter your WESS User Name & Password. Clicking the Save password check box will avoid having to re-enter this information later.

Retrieving Pre-formatted Reports

The screenshot shows the WESS (Web Enabled Safety System) interface. The top navigation bar includes 'Reports', 'Schedule', 'On Demand', 'Preferences', and 'Logout'. The left sidebar shows the 'User Directory' with 'My Reports' and 'Public Reports' links. The main content area shows the 'My Reports' tab selected, with a path of '/USERFOLDERPATH/sc90cma'. Below the path are links for 'JReport Analysis', 'Deploy', and 'Properties'. A table with columns 'Name', 'Type', 'Description', 'Control', and 'Last Modified' is displayed, but it is currently empty.

After log-in, the first **JReports®** User Environment screen is displayed. The **"My Reports"** tab is open and the folder is empty.

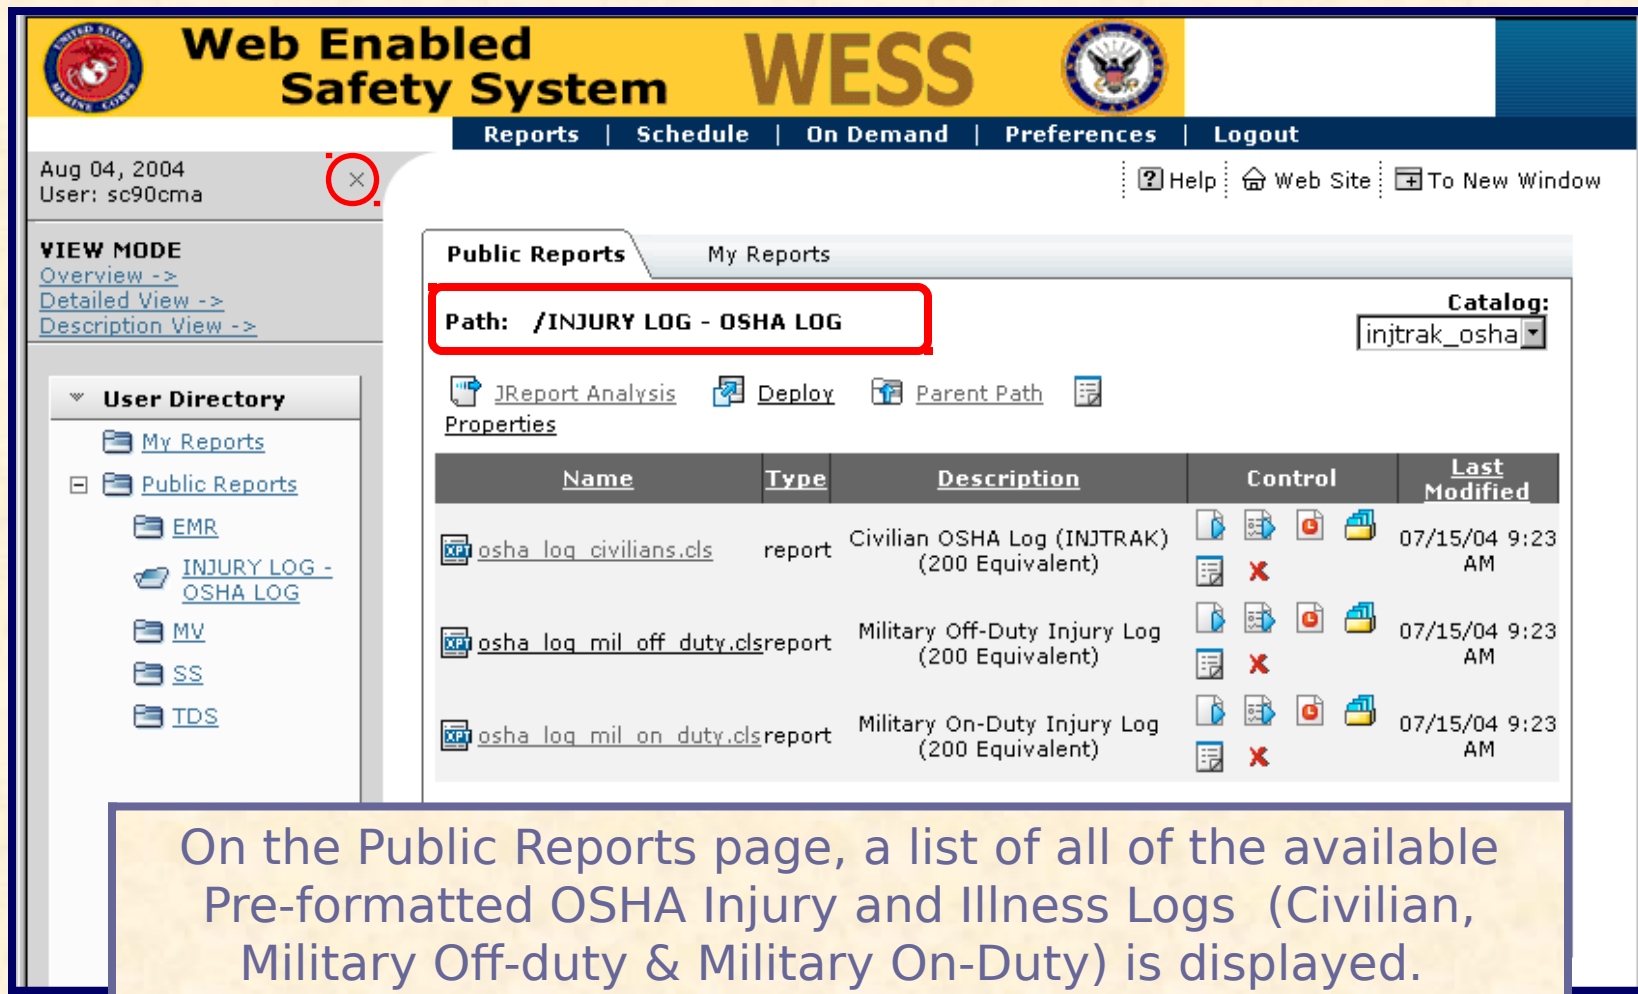

The screenshot shows the WESS interface with the 'Public Reports' tab selected. The left sidebar shows the 'User Directory' with 'My Reports' and 'Public Reports' links. The main content area shows the 'Public Reports' tab selected, with a path of '/'. Below the path are links for 'JReport Analysis', 'Deploy', and 'Properties'. A table with columns 'Name', 'Type', 'Description', 'Control', and 'Last Modified' is displayed, showing various report categories. The 'INJURY LOG - OSHA LOG' row is highlighted with a red box.

| Name | Type | Description | Control | Last Modified |
|-----------------------|--------|-----------------------------|---------|---------------|
| EMR | folder | Explosive Mishap Reports | | |
| INJURY LOG - OSHA LOG | folder | INJURY LOG - OSHA LOG | | |
| MV | folder | Motor Vehicle Reports | | |
| SS | folder | Sea/Shore Reports | | |
| TDS | folder | Total Daily Summary Reports | | |

Clicking the **Public Reports** tab or the link in the User Directory at left, will display the various standardized report categories.

Click **"Injury Log - OSHA Log"** to see an example

Public Reports | My Reports

Path: /INJURY LOG - OSHA LOG Catalog: injtrak_osha

JReport Analysis | Deploy | Parent Path | Properties

| Name | Type | Description | Control | Last Modified |
|---------------------------|--------|---|---------|------------------|
| osha_log_civilians.cls | report | Civilian OSHA Log (INJTRAK) (200 Equivalent) | [Icons] | 07/15/04 9:23 AM |
| osha_log_mil_off_duty.cls | report | Military Off-Duty Injury Log (200 Equivalent) | [Icons] | 07/15/04 9:23 AM |
| osha_log_mil_on_duty.cls | report | Military On-Duty Injury Log (200 Equivalent) | [Icons] | 07/15/04 9:23 AM |

The pre-formatted reports (logs) are listed by name and description. The icons in the “**Control**” column allow the user to: **Run** the report / **Advanced Run**, **Schedule** recurring reports, access different report **Versions**, show **Properties** and **Delete** a report.

Click the “Help” button in WESS JReports for a more detailed explanation of these functions.

Let’s look at the **Civilian Osha Log** report on the next slide.

Enter the Report Parameters

Report Param - Microsoft Internet Explorer provided by Navy Marine Corps Intranet

Parameters

Report : /INJURY LOG - OSHA LOG/osha_log_civilians.cls Catalog : /INJURY LOG - OSHA LOG/injtrak_osha.cat

Enter Beginning Date (01/01/2003)

Enter the Title you would like to see on your report.

Enter Ending Date (12/31/2003)

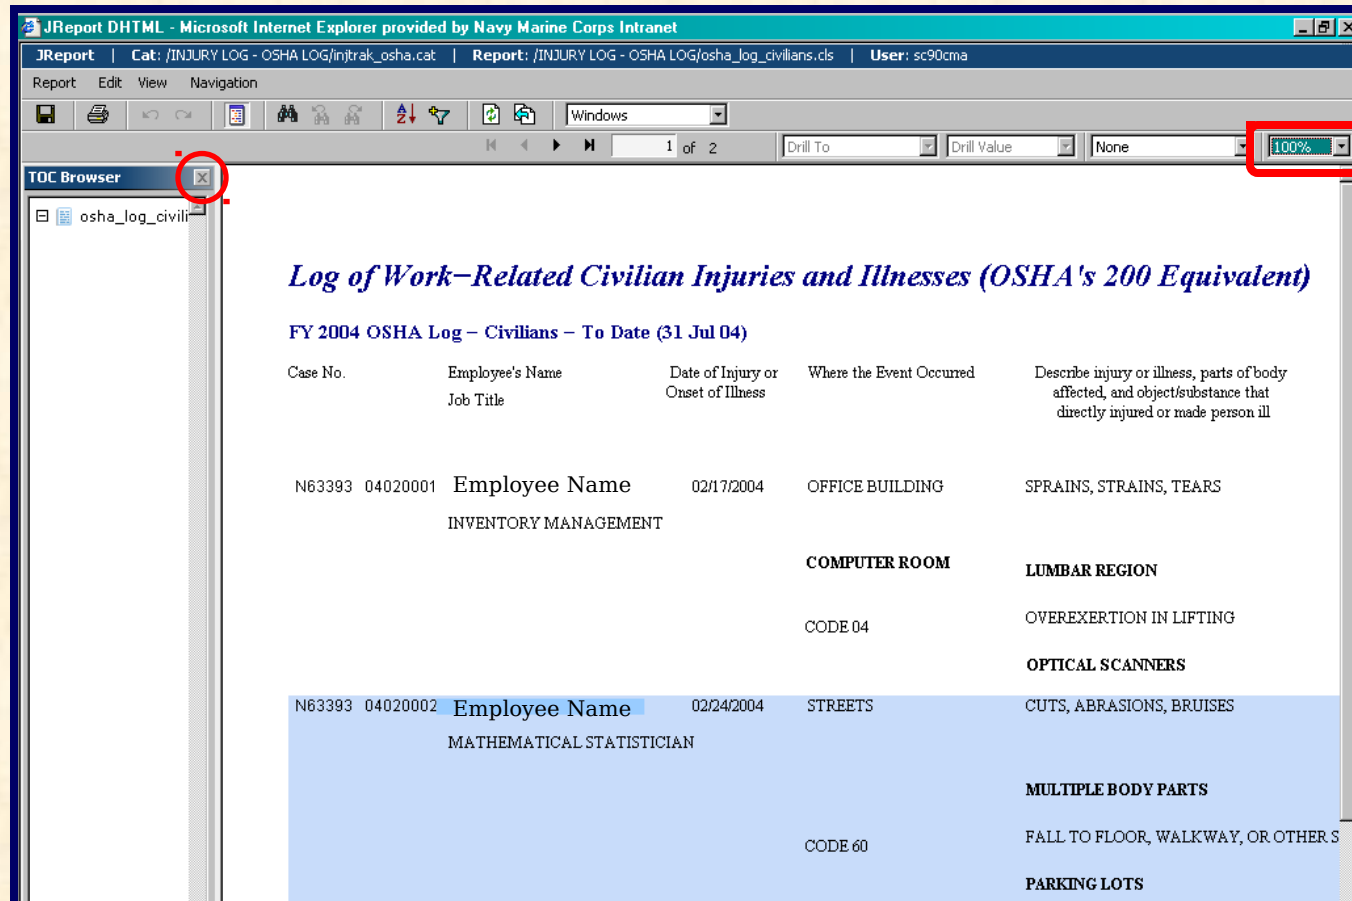

Enter UIC (ex: Nxxxxx) OR RUC/MCC (ex: Mxxxxxxxx)

Enter the **Beginning and Ending Dates** of the Log Report in **MM/DD/YYYY** format. Enter a **Report Title**, e.g. "FY-04 OSHA Log of Civilian Injuries and Illnesses". And finally, enter the activity's **UIC, RUC or MCC**, starting with "N" for Navy and "M" for Marine Corps commands. E.g. N99999, M0000000, etc.

Click the "Submit" button to Continue.

Selected Report Results

Log of Work-Related Civilian Injuries and Illnesses (OSHA's 200 Equivalent)

FY 2004 OSHA Log - Civilians - To Date (31 Jul 04)

| Case No. | Employee's Name Job Title | Date of Injury or Onset of Illness | Where the Event Occurred | Describe injury or illness, parts of body affected, and object/substance that directly injured or made person ill |
|-----------------|--|---------------------------------------|---|---|
| N63393 04020001 | Employee Name INVENTORY MANAGEMENT | 02/17/2004 | OFFICE BUILDING COMPUTER ROOM CODE 04 | SPRAINS, STRAINS, TEARS LUMBAR REGION OVEREXERTION IN LIFTING OPTICAL SCANNERS |
| N63393 04020002 | Employee Name MATHEMATICAL STATISTICIAN | 02/24/2004 | STREETS | CUTS, ABRASIONS, BRUISES |
| | | | CODE 60 | MULTIPLE BODY PARTS FALL TO FLOOR, WALKWAY, OR OTHER S |
| | | | | PARKING LOTS |

The OSHA Log Report will display in Form-300 format.

Note:
Earlier WESS 1 data displays using OSHA 200 equivalent format, as shown at left, until the data is converted.

To view the report in full screen, close the browser frame at left and change the image size at upper left from 100% to 75%. This will result in the full screen view of the Log Form on the next slide.

The report displays a one-line listing of All Navy, On and Off-Duty Fatalities and Total Disabilities for the specified interval.

Notes Re: Pre-formatted Reports

- The JReports data retrieval application is intended to be highly flexible and a resource for building future standardized queries. The Reports available on the **Pre-Formatted Reports** screen are **not limited** to these examples.
- Standardized Reports may be easily developed for a variety of purposes and are particularly valuable where there is wide application.
- Customers are encouraged to recommend additions to the selection of pre-formatted reports as needs are identified at any time.
- A WESS Feedback report is the best way to make recommendations and suggestions for improvements
- In some cases, customers may develop and save specific tailored standardized reports and may run them on a recurring basis. User-saved reports are found by selecting the Versions icon in the

“Custom” Data Queries Using JReports®

To learn about the “custom” user-defined search capabilities and techniques offered by JReports®,
